AND MATERIALS SCIENCE

TEL AVIV UNIVERSITY
Pursuing the Unknown

Classical and Quantum Non-equilibrium Dynamics

August 3-10, 2016, Tel Aviv University, Tel Aviv, Israel

School

3-5.8.2016, Shenkar Building, Melamed Hall (006)

Speakers:

- **Eran Bouchbinder**, Weizmann Institute of Science, Israel
- **Christoph Dellago**, University of Vienna, Austria
- **Yonatan Dubi**, Ben-Gurion University, Israel
- **Yariv Kafri**, Technion - Israel Institute of Technology, Israel
- **Herbert Levine**, Rice University, Texas, USA
- **Dan Major**, Bar-Ilan University, Israel
- **Mark O. Robbins**, Johns Hopkins University, USA
- **Yair Shokef**, Tel Aviv University, Israel
- **Michael Thoss**, University of Erlangen-Nuremberg, Germany

Organizers: Oded Hod & Michael Urbakh

Workshop

7-10.8.2016, The Porter School Building, Auditorium

Bringing together the communities of classical and quantum simulations of closed and open systems out of equilibrium to discuss mutual contemporary challenges and suggested novel strategies to address them.

Speakers:
